INTRODUCTION TO A3 PROBLEM SOLVING

WHAT IS THE COURSE ALL ABOUT?

A practical and interactive workshop that follows the book *Managing to Learn* by John Shook. It is designed to equip organisations on the lean journey and strengthen a culture of learning, problem-solving and scientific thinking. A3 coaching forms a key component of the learning. Suitable to manufacturing, service, healthcare and public sector. This workshop is also available for on-site delivery. The workshop includes presentations from the facilitator, small group discussions and reflection activities.

WHO SHOULD ATTEND?

Suitable to all industries including manufacturing, service, healthcare and public sector

All individuals or teams who wish to gain an introductory understanding of Lean Principles and the basic toolkit
