## INTRODUCTION TO LEAN WORKSHOP

### WHAT IS THE COURSE ALL ABOUT?

An accessible and thorough introduction to lean. Following the philosophy of 'learning by doing' participants will learn the principles and basic tools of Lean Management.

The workshop includes presentations from an experienced facilitator, small group discussions and a simulation game. It is an interactive, cumulative learning experience, using cycles of a well-tested game that prompts incremental change through reflection.

### WHO SHOULD ATTEND?

Suitable to all industries including manufacturing, service, healthcare and public sector

All individuals or teams who wish to gain an introductory understanding of Lean Principles and the basic toolkit

### COURSE STRUCTURE

The course is delivered over two consecutive days in a classroom environment
