INTERNATIONAL WORKSHOPS

Benefit from the Lean Institute Africa's membership of the Lean Global Network which enables our access to international thought-leaders from around the globe. We learn, share and collaborate with our international network to benefit our local organisations.

Our members include the original founders of the Lean Global Network, Jim Womack and Dan Jones, and we have hosted various speakers, authors and experts over the years including Mike Rother, John Shook, Michael Balle, Rene Aernoudts and Dave Brunt.

We are able to source and host advisors from any of our institutes (more than 30 globally) and can pair your particular needs and sector with an international expert.
